

## **Conant School Craft Fair Criteria for Crafts**

As many of you know the craft market has been flooded with imports. We have seen this at our fair and would like to improve the quality of our fair. We believe that our patrons are looking for crafts and jewelry that are hand made and unique. Therefore we are going to be more strict about who and what we let in.

All crafters may only bring crafts that they hand made themselves. The artist must be at our fair to talk to the patrons and elaborate on how their products are made. Our patrons look forward to this info as part of their craft shopping experience.

We know that many of you spend hours of your time at your craft and we do not want you to compete with “imports”. We do appreciate the time spent and quality of your hand made products. If you know of other crafters who make unique hand made products please encourage them to apply to our fair .You are the best judge of a good craft.

We will continue to limit the number of jewelry makers at our fair. Jewelers please send pictures of your best showings, and include a detailed note about the uniqueness of your pieces, time spent, etc.

Thank you for your continued support for our School and we look forward to seeing you this fall.
